Modern Insight Productions, LLC installs interactive web cameras at award winning and nationally recognized *Gail Fisher's All Dogs Gym and Inn.*

Auburn, NH - Modern Insight Productions, LLC, creators of PetCamz, an innovative webcamera solution for pet care facilities, installed three interactive web cameras in June within *Gail Fisher's All Dogs Gym and Inn* located in Manchester, New Hampshire. The webcamera package now allows pet owners and those curious about what types of services the Gym provides, real-time viewing capabilities via an interactive web site.

"Our goal at Modern Insight Productions, LLC is to allow pet owners instant access to their pets from any location in the world that has Internet access. As animal lovers, we know how hard it is to leave a beloved pet at a boarding facility. Not being able to see how they are doing, or if they're eating and sleeping well can be very overwhelming, especially when owners are gone for an extended period of time," says Aaron Grueter, Vice President of Business Development at Modern Insight Productions, LLC. "Now, when a pet owner boards their animal at *All Dogs Gym and Inn*, they have the option of selecting one of two suites equipped with our interactive webcameras. With access to the Internet and their private password, an owner can view their pet at any time and feel assured with the care they are receiving."

Along with webcameras in the suites, a third camera was installed within the *All Dogs Arena*, a 12,000 square-foot area, which hosts a variety of activities from agility training and flyball tournaments to dog competitions bringing dog owners from all over the New England area and New York together. PetCamz allows people from Manchester, or half way across the world, to

watch all of the activities with real-time speed.

“Offering the PetCamz webcamera solution to our customers is invaluable,” says Gail Fisher, owner of All Dogs Gym and Inn and world-renowned author, lecturer, and dog trainer. “Our customers are now able to see, whenever they’d like, what is going on in the Arena, or in their pet’s suite. It gives them peace of mind to know that we feel confident enough in our care to provide such a candid service.”

About Modern Insight Productions, LLC Offering Innovative Webcamera Solutions

Modern Insight Productions, LLC is a webcam service provider for professional and private applications. Our flagship product, Petcamz, is designed specifically for pet care facilities. We supply the webcam equipment, expertise in installation management, high-speed internet access, and ongoing technical support and maintenance.

Modern Insight Productions, LLC was created due to an increasing demand for experienced professionals that deal strictly with providing webcam solutions. Often times, companies will hire a network administrator or a website designer to implement webcam a solution. This is done because it is assumed that webcam technology is just like other technology and that any technically oriented person may successfully implement it. We have found that this approach often results in a hap-hazard site with choppy video and poor quality; not the things one would expect for professional use. We've solved these issues and are fully aware of the complexities that may arise upon a webcam installation.

We pride ourselves in our work and we are not satisfied until the job is completed in full.

About Gail Fisher’s All Dogs Gym and Inn

All Dogs Gym and Inn (www.alldogsgym.com) was founded in 1993 by Gail Fisher, an award-winning author, lecturer, dog trainer, behaviorist and obedience instructor with over 25 years of experience in the field. Since its opening, the Gym has become a regional, National and International focal point for dog owners, trainers and dog-care professionals who are drawn to the Gym's mission.

Dogs and their owners can enjoy a variety of daytime and evening classes in obedience, agility, conformation and flyball - all from beginner to competition level. Many owners rely on Doggy Daycare to give their puppies and dogs the exercise and socialization necessary to be healthy and happy members of the family. The Gym provides grooming and private training as well as more specialized behavior consultation to solve a worrisome behavior problem. And our new, state-of-the-art building allows us to offer worry-free overnight care at All Dogs Inn.
