### **Company delivering full service webcam solutions targeting pet care facilities is now fully operational.**

**Auburn, NH** - Modern Insight Productions, LLC, creator of PetCamz, an innovative webcam solution for pet care facilities, is now fully operational.

The company, founded in May 2004, provides an easy and innovative way for pet care facilities, such as nationally recognized *All Dogs Gym and Inn*, to set up viewing capabilities, via the internet, so that clients are able to view their pets from a password protected, secure website.

“Our flagship product, PetCamz, is a complete webcam installation and maintenance service designed specifically for pet care facilities. We supply the webcam equipment, high-speed internet access, expertise in installation management, and ongoing technical support and maintenance. Each location is then given a personal website so webcam viewing is available from anywhere in the world,” says Craig Wrentmore, Vice President of Information Technology and Installation Management at Modern Insight Productions.

“At Modern Insight Productions, LLC, we understand how valuable it is for pet owners to be able feel confident with their boarding facility’s care when they are away. Once they can see that their pet is safe and happy, they can truly enjoy their trip.” says Aaron Grueter, Vice President of Business Development for Modern Insight Productions, LLC.

The PetCamz solution is available for boarding rooms, play group areas, training arenas, and grooming rooms. “To be able to make sure that your beloved pet is happy and safe is invaluable. Knowing that a pet care facility is willing to offer such a candid service says a lot to a customer,” says Grueter.

Though the company’s current focus is with pet care facilities, it realizes the need for reliable webcamera technology and management and will begin pursuing other ventures in the near future.
